

I have a Rohn BX 40 (without concrete legs) that I won't be using now since I put up the 52' crank up. Asking \$350.00, (pick up from Prescott Valley) this tower is still being sold at \$882.00 at

<http://criticaltowers.com/BX%20Series%20Towers/Web%20Pages/BX%20Series%20Tower%20Page.htm> and parts are available if needed.
